

Swiss Marine recherche un Graduate Trainee Freight and Commodity Trader pour leur programme de 2 ans.

Jake Wibberley chez BrightsParks est le recruteur.

#### Overview:

The focus of the trainee programme will be on developing your skills as a trader and you will have exposure to the constant negotiation with both clients and brokers from the start. Start date will be Summer/Autumn 2017.

#### Prerequisites:

Tenacious and highly motivated individual who possesses excellent numerical and communication skills. You will have achieved at least a 2.1 (or equivalent) and have illustrated your ability to use your entrepreneurial flair and/or seize commercial opportunities.

#### Responsibilities include:

- For the first few months of the program you will work as an operator to quickly get a thorough understanding of the market and master the terminology. You will then be able to work on deals directly in the market under the supervision of a more senior trader before being given your own customers.
- You will be engaged in all aspects of the business, including price calculations, price negotiations and risk assessments. As you progress through the program and gain experience, you will be given more responsibility, larger deals and more autonomy to make your own decisions.
- After successfully completing the two-year program you will be in a position to generate new business and yourself begin to supervise and develop new trainees.
